# MAXIM SAVCHENKO

JUNIOR QA ENGINEER

*Ukraine , Kharkiv*

t: +380 93 014 43 86  |  e: uspmsm@gmail.com  |  w: in/maxim-savchenko

## PROFILE

Hello everyone! I am looking for work in the position of Junior QA. In addition, I have natural perfectionism and attentiveness, which in my opinion are important qualities for a quality engineer. To achieve this, I did the following: I have completed software testing courses at Telesens Academy. He also graduated from Front-end courses (HTML / CSS + JS) at Lemon School (with honors). I study English myself. I have experience with Gulp, SCSS, Flexbox, jQuery, Git, Avocode, PhotoShop, Zeplin. I also have a concept about Bootstrap, Grid, software development methodology (Scrum, Kanban, etc.) I understand that I have little experience. I am ready to compensate for this by diligence and willingness to develop.
